

Londonderry Primary School

Accessing Google Classrooms on a mobile device.

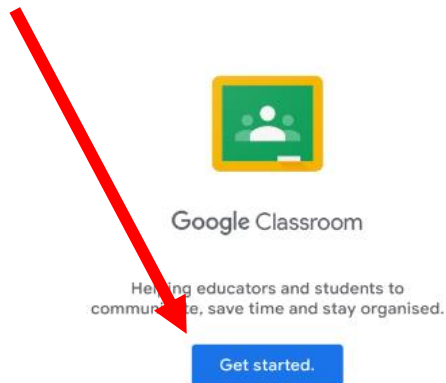

This guide will help you to access Google Classroom on your smartphone or tablet. There will be some differences depending on the device you use but the basics remain the same.

The Google Classroom app is available in the Android Play Store and Apple App Store.

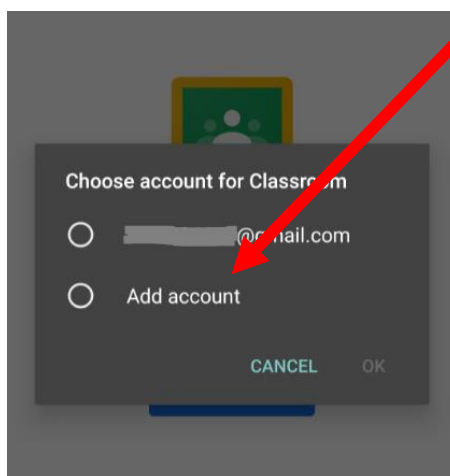

**Android Devices**

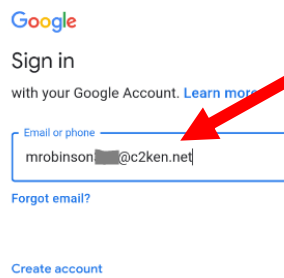

1. Open the Google Classroom app and click on "Get Started".

2. A pop-up will ask you to select the google account you wish to use. If your child's **@c2ken.net** is listed select it and click ok. If your child's account is not listed select "Add account".

3. You will see a sign in page, enter your child's email. Remember to use "**@c2ken.net**". Click Next.

Next

4. You will see this log in screen, enter your child's **@c2ken.net** email and their password. Click Sign in.

3. Google Classroom should open, you will see your child's initial in a circle at the top. Invitations to classrooms will also be visible for you to join.

**Please note:** If you are using your device for multiple pupil accounts you will have to click the coloured initial circle and select the account you wish to use in google classroom.

If you have difficulty switching accounts you should click on “Manage accounts” and remove the account you are trying to use, then follow the instructions above to add it to your device again.
